This book is an essential resource for candidates who are preparing for the Principles and Practice of Engineering (P.E.) examination in architectural engineering.

14v01 - Updates and corrections to problem statements and solutions.The Practice Exam for the Principle and Practice of Engineering (PE) - Naval Architecture is written by a professional naval architect with over 15 years experience in providing engineering support to offshore oil, maritime construction, shipyard maintenance and repair, and military projects. The author took the most recently proctored exam (2013) and offers this practice exam as a demonstration for the level of difficulty that will be encountered by future candidates on exam day. This exam is formatted to look like and feel like the NCEES exam; with a distribution of questions across the breadth of engineering topics tested that emulates the distribution presented by the NCEES exam. Answers for all 80 questions are included with explanations.
