I swear on my dog's life that Neal Shusterman's Everlost is pure awesomeness. Kids who die go to a sort of place but not a place existing between life and death called Everlost. If they stay there instead of passing on, they have to stay in areas called "dead spots", where a significant death has happened.

Everlost - Wikipedia

Neal Shusterman has written an engaging story full of twists and turns to keep the reader on their toes. This is not simply a YA novel, adults can fall under it's spell just as easily and teens. The story doesn't end on a cliffhanger but I can't imagine not wanting to dive right into the next book in the series.

Nick and Allie have to learn to survive in a world with different rules, and figure out who they can trust--and who they must oppose at all costs. At stake is nothing less than the fate of Everlost and the living world they have left behind. In this gripping trilogy, Neal Shusterman explores questions of life, death, and what just might lie in between.

When they find Mary, the self-proclaimed queen of lost souls, Nick feels like he's found a home, but Allie isn't satisfied spending eternity between worlds. Against all warnings, Allie begins learning the "Criminal Art" of haunting, and ventures into dangerous territory, where a monster called the McGill threatens all the souls of Everlost.

Nick the "chocolate ogre" wants to help the children of Everlost to reach the light at the end of the tunnel, and is slowly handing each child a coin which will release them from Everlost. But Mary Hightower wants to trap the children forever, and joins forces with Pugsy Capone, a death boss, who gains allies in a terrible way... Meanwhile, Allie has gone in search for her parents and joins up with a group of "skinjacks". But, as her search takes her further away from Nick and the children of Everlost, Allie uncovers a shocking secret... it seems that "skinjacks" are not actually dead... In this riveting sequel to the imaginative, supernatural thriller, Everlost, there is new dark force to be reckoned with.

In the limbo that's Everlost, Mary, Nick, Allie, and others face the decisions that will determine whether that place and the Earth itself will continue to exist, as well as where their own futures lie.

When Nick and Allie are killed in a car crash, they end up in Everlost, or limbo for lost souls, where although Nick is satisfied, Allie will stop at nothing--even skinjacking--to break free.

Beneath the sewer grates and manholes of the city lies a strange and secret world called the Downside. Every Downsider knows that it's forbidden to go Topside, and most fear a collision of the two worlds. But fourteen-year-old Talon is curious about what goes on above ground, and one day he ventures out in search of medicine for his ailing sister. There he meets Lindsay, who is as curious about Talon's world as he is about hers. When Lindsay visits the Downside for the first time, she marvels at the spirit of the Downsiders, and the way they create works of art from topside "trash," like old subway tokens and forgotten earrings. As awed as she is by the Downside, however, she also questions its origins, and when she finds out that this fantastic world is not all it appears to be, she is determined to tell Talon the truth. Then a construction accident threatens to crush Talon's world, and his loyalty is put to the test. Can the truth save the Downside, or will it destroy an entire civilization?
