When a group of outcasts with extraordinary abilities comes out of hiding, their clash with a violent society will spark a revolution—or an apocalypse. “Much like the X-Men comics, Proehl masterfully uses science fiction as a lens to examine social inequality and human evil.”—Booklist Avi Hirsch has always known his daughter was

different. But when others with incredible, otherworldly gifts reveal themselves to the world, Avi realizes that her oddness is something more—that she is something more. With this, he has a terrifying revelation: Emmeline is now entering a society where her unique abilities unfairly mark her as a potential threat. And even though he is her father, Avi cannot keep her safe forever. Emmeline soon meets others just like her: Carrie Norris, a teenage girl who can turn invisible . . . but just wants to be seen. Fahima Deeb, a woman with an uncanny knack for machinery . . . but it's her Muslim faith that makes the U.S. government suspicious of her. They are the nobody people—ordinary individuals with extraordinary gifts who want one only thing: to live as equals in an America that is gripped by fear and hatred. But the government is passing discriminatory laws. Violent mobs are taking to the streets. And one of their own—an angry young man seething with self-loathing—has used his power in an act of mass violence that has put a new target on the community. The nobody people must now stand together and fight for their future, or risk falling apart. The first book of a timely two-part series, *The Nobody People* is a powerful novel of love and hope in the face of bigotry that uses a world touched by the fantastic to explore our current reality. It is a story of family and community. It is a story of continuing to fight for one another, no matter the odds. It is the story of us. Bob Proehl

Understanding Da Vinci's Creative Genius The life and art of history's most influential mind Bestselling author Leonard Shlain explores the potential for humankind through the life, art, and mind of the first true Renaissance Man, Leonardo da Vinci. His innovations as an artist, scientist, and inventor are recast through a modern lens, with Shlain applying contemporary neuroscience to illuminate da Vinci's creative process. No other person in human history has excelled in so many areas of innovation: Shlain reveals the how and the why. Shlain theorizes that Leonardo's extraordinary mind came from a uniquely developed and integrated right and left brain, which offers a model for how we too can evolve. Using past and current research, Leonardo's Brain presents da Vinci as the focal point for a fresh exploration of

human creativity. With his lucid style and remarkable ability to discern connections among a wide range of fields, Shlain brings the reader into the world of history's greatest mind. Leonard Shlain is a bestselling author, inventor, and surgeon. Admired among artists, scientists, philosophers, anthropologists, and educators, he authored three bestselling books. He delivered stunning visual presentations based upon his books in venues around the world, including Harvard, the New York Museum of Modern Art, CERN, Los Alamos, the Florence Academy of Art, and the European Council of Ministers. Shlain died in May 2009 at the age of 71 from brain cancer shortly after the completion of this book. Visit LeonardShlain.com and LeonardosBrain.com.
