## ENTREPRENEURSHIP

At the nexus of sustainable development and entrepreneurship, Hart and Milstein (1999) were among the first to emphasize the potential of entrepreneurship. They applied the concept of creative destruction (Schumpeter, 1942) as a precondition and the central force for the transition to a sustainable society.

informal sector entrepreneurship. In order to understand the process of new venture creation in developing economies, what it means to be engaged in entrepreneurship in a developing world context must be addressed. This handbook does so by exploring the difficulties, risks and rewards associated with being an entrepreneur, and evaluates the impacts of the environment, relationships, performance and policy dynamics on small and entrepreneurial firms in developing economies. The handbook brings together a unique collection of over forty international researchers who are all actively engaged in studying entrepreneurship in a developing world context. The chapters offer concise but detailed perspectives and explanations on key aspects of the subject across a diverse array of developing economies, spanning Africa, Asia, Latin America and Eastern

Europe. In doing so, the chapters highlight the heterogeneity of entrepreneurship in developed economies, and contribute to the on-going policy discourses for managing and promoting entrepreneurial growth in the developing world. The book will be of great interest to scholars, students and policymakers in the areas of development economics, business and management, public policy and development studies.

With the need for sustainability, a focus on developing an economic system that aims at minimizing waste, commonly referred to as the circular economy, is emerging. Circular economy and studies related to it have gained worldwide attention, as it seems to be an effective alternative economic system. Naturally, the circular economy will impact enterprises and will shift how entrepreneurship development

importance of entrepreneurship and enterprise. Entrepreneurship is now a dynamic and expanding area of research, teaching, and debate, but there has been no standard reference work which is suitable for both established scholars and new researchers. This book fills that gap. All the major aspects of entrepreneurship are covered, including: \* the start-up and growth of firms, \* financing and venture capital, \* innovation, technology and marketing, \* women entrepreneurs, \* ethnic entrepreneurs, \* migration, \* small firm policy, \* the economic and social history of entrepreneurship. This is a comprehensive review of state-of-the-art research in entrepreneurship, written by an international team of leading scholars, and will be an essential reference for academics and policy makers, as well as being suitable for use on masters courses and doctoral programs. Interest in and attention to entrepreneurship has exploded in recent years. Nevertheless, much of the research and scholarship in entrepreneurship has remained elusive to academics, policymakers and other researchers, in large part because the field is informed by a broad spectrum of disciplines, including management, finance, economics, policy, sociology, and psychology, often pursued in isolation from each other. Since its original publication in 2003, the
