(PDF) RealTime Physics : active learning labs transforming ...

1. You are given ten identical springs. Describe how you would develop a scale of force (ie., a means of producing repeatable forces of a variety of sizes) using these springs. Decide on an extension length of the spring for which one spring extended by this length exerts one unit of force on the object to which it is attached. Two springs both connected to the object, pulling in parallel and both extended by this length would exert two units of force and so forth up to 10 units of force for ...

HOMEWORK FOR UNIT 5-1: FORCE AND MOTION

An example of a large physics textbook publisher would be "Addison-Wesley". One word of caution: asking for help with the occasional "stumper" of a physics question or word problem might get you a positive answer, but wholesale "trying to cheat" by acquiring an Answers Key for a course may incur the ire & wrath of other Yahoo users.
