French naturalist and medical doctor Aimé Bonpland (1773–1858) was one of the most important scientific explorers of South America in the early nineteenth century. From 1799 to 1804, he worked alongside Alexander von Humboldt as the latter carried out his celebrated research in northern South America, but he later returned to conduct his own research farther south. *A Life in Shadow* accounts for the entire span of Bonpland's remarkable and diverse career in South America—in Argentina, Paraguay (where he was imprisoned for nearly a decade), Uruguay, and southernmost Brazil—based on extensive archival material. The study reconnects Bonpland's divided records in Europe and South America and delves into his studies of rural resources in

interior regions of South America, including experimental cultivation techniques. This is a fascinating account of a man—a doctor, farmer, rancher, scientific explorer, and political conspirator—who interacted in many revealing ways with the evolving societies and institutions of South America.

Poet and novelist Hiromi Goto effortlessly blends wry, observational slice-of-life literary fiction with poetic magical realism in the tender and surprising graphic novel *Shadow Life*, with haunting art from debut artist Ann Xu. When Kumiko's well-meaning adult daughters place her in an assisted living home, the seventy-six-year-old widow gives it a try, but it's not where she wants to be. She goes on the lam and finds a cozy bachelor apartment, keeping the location secret even while communicating online with her eldest daughter. Kumiko revels in the small, daily pleasures: decorating as she pleases, eating what she wants, and swimming in the community pool. But something has followed her from her former residence—Death's shadow. Kumiko's sweet life is shattered when Death's shadow swoops in to collect her. With her quick mind and sense of humor, Kumiko, with the help of friends new and old, is prepared for the fight of her life. But how long can an old woman thwart fate?

A family's recently discovered correspondence provides the inspiration for this fascinating and deeply moving account of Jewish family life before, during and after the Holocaust. Rebecca Boehling and Uta Larkey reveal how the Kaufmann-Steinberg family was pulled apart under the Nazi regime and dispersed over three continents. The family's unique eight-way correspondence across two generations brings into sharp focus the dilemma of Jews in Nazi Germany facing the painful decisions of when, if and to where they should emigrate. The authors capture the family members' fluctuating emotions of hope, optimism, resignation and despair as well as the day-to-day concerns, experiences and dynamics of family life despite increasing persecution and impending deportation. Headed by two sisters who were among the first female business owners in Essen, the family was far from conventional and their story contributes new dimensions to our understanding of Jewish life in Germany and in exile during these dark years.

"A vivid exploration of one man's lifelong obsession with an idea . . . Egan's spirited biography might just bring [Curtis] the recognition that eluded him in life." —Washington Post Edward Curtis was charismatic, handsome, a passionate mountaineer, and a famous portrait photographer, the Annie Leibovitz of his time. He moved in rarefied circles, a friend to presidents, vaudeville stars, leading thinkers. But when he was thirty-two years old, in 1900, he gave it all up to pursue his Great Idea: to capture on film the continent's original inhabitants before the old ways disappeared. Curtis spent the next three decades documenting the stories and rituals of more than eighty North American tribes. It took tremendous perseverance—ten years alone to persuade the Hopi to allow him to observe their Snake Dance ceremony. And the undertaking changed him profoundly, from detached observer to outraged advocate. Curtis would amass more than 40,000 photographs and 10,000 audio recordings, and he is credited with making the first narrative documentary film. In the process, the charming rogue with the grade school education created the most definitive archive of the American Indian. "A darn good yarn. Egan is a muscular storyteller and his book is a rollicking page-turner with a colorfully drawn hero." —San Francisco Chronicle "A riveting biography of an American original." —Boston Globe

Shadow of the Almighty is a modern classic story of faithfulness, obedience, and martyrdom. It is the best-selling account of the martyrdom of Jim Elliot and four other missionaries at the hands of the Huaorani Indians in Ecuador. Shadow of the Almighty has inspired Christians since its first publication in 1958. Elisabeth Elliot makes full use of Jim's revealing diaries to fill in the details of a life completely committed to God's service. This story was reintroduced to today's audiences in 2006 thanks to the release of the film, End of the Spear, which tells for the first time the killings from the perspective of the Huaorani.
