The Years is a 1937 novel by Virginia Woolf, the last she published in her lifetime. It traces the history of the genteel Pargiter family from the 1880s to the "present day" of the mid-1930s.

The Years traces the history of the genteel Pargiter family from the 1880s to the "present day" of the mid-1930s. Spanning through fifty years, the novel focuses on the small private details of the characters' lives. Sections take place on a single day of its titular year, and each year is defined by a particular moment in the cycle of seasons.

This carefully crafted ebook: "The Years" is formatted for your eReader with a functional and detailed table of contents. The Years is a 1937 novel by Virginia Woolf, the last she published during her lifetime. The Years follows the lives of the Pargiters, a large middle-class London family, from an uncertain spring in 1880 to a party on a summer evening in the 1930s. We see them each endure and remember heart-break, loss, radical change and stifling conformity, marriage and regret. Written in 1937, this was the most popular of Virginia Woolf's novels during her lifetime, and is a powerful indictment of 'Victorianism' and its values. Although spanning fifty years, the novel is not epic in scope, focusing instead on the small private details of the characters' lives.

Love. Hate. Peace. Three emotions made the ply of human life. Between the Acts takes place on a June day in 1939 at Pointz Hall, the Oliver familys country house in the heart of England. In the garden, everyone from the village has gathered to present the annual pageantscenes from the history of England starting with the Middle Ages. As the story of England unfolds, the lives of the villagers also take shape. The past blends with the present and art blends with life in a narrative full of invention, affection, and lyricism. Through her characters' passionate musings and private dramas, and through the enigmatic figure of the pageant's author, Miss La Trobe, Virginia Woolf's final novel both celebrates and mocks Englishness. Even so, the coming of war looms over the whole community, heralding a new act.

This elegantly written and richly detailed biography tells the story of Virginia Woolf's last ten years, from the creation of her great visionary novel, The Waves, to her suicide in 1941. Herbert Marder looks closely at Woolf's views on totalitarianism and her depictions of Britain under siege to create a remarkable portrait of a mature and renowned writer during a time of rising fascist violence. An awareness of personal danger, Marder says, colored Woolf's actions and consciousness in the years leading up to World War II. She practiced her art with intense dedication and was much admired for her wit and vivacity. But she had previously tried to kill herself, and she asserted her right to die if her manic-depressive illness became intolerable. Waves and water haunted her imagination; visions of drowning recurred in her work. The Measure of Life suggests that Woolf anticipated her suicide, and indeed enacted it symbolically many times before the event. Marder's account of her death emphasizes the importance of her relationship with her doctor and distant cousin, Octavia Wilberforce. Wilberforce's letters about Woolf's last months, including some previously unpublished passages, appear in the

appendix. Staying close to the spirit of Woolf's own writing, Marder traces her evolving social consciousness in the 1930s, connecting her growing concern with politics and social history with the facts of her daily life. He stresses her endurance as a working writer, and explores her friendships, her complex relations with servants, and her activities at the Hogarth Press. *The Measure of Life* illuminates the unspoken quarrels and obscure acts of courage that provide a key, as Woolf herself believed, to the hidden roots of our existence. By letting the reader see events as Virginia Woolf saw them, Marder's compelling narrative captures both her unique comic spirit and her profound seriousness.

"Virginia Woolf's extraordinary last novel, *Between the Acts*, was published in July 1941. In the weeks before she died in March that year, Woolf wrote that she planned to continue revising the book and that it was not ready for publication. Her husband prepared the work for publication after her death, and his revisions have become part of the text now widely read by students and scholars. Unlike most previous editions, the Cambridge edition returns to the final version of the novel as Woolf left it, examining the stages of composition and publication. Using the final typescript as a guide, this edition fully collates all variants and thus accounts for all the editorial decisions made by Leonard Woolf for the first published edition. With detailed explanatory notes, a chronology and an informative critical introduction, this volume will allow scholars to develop a fuller understanding of Woolf's last work"---

Unlock the more straightforward side of *The Years* with this concise and insightful summary and analysis! This engaging summary presents an analysis of *The Years* by Virginia Woolf, which follows the members of the same family, the Pargiters, over three generations. In this time, their lives and the world around them change drastically, and they struggle to grasp the meaning of life and connect with other people. *The Years* was both the last and the most popular of Virginia Woolf's novels to be published during her lifetime. Woolf is widely considered to be one of the most significant English-language writers of the 20th century; her best-known works include the novels *Mrs Dalloway*, *The Waves* and *Orlando*, and the essays *A Room of One's Own* and *Three Guineas*. Find out everything you need to know about *The Years* in a fraction of the time! This in-depth and informative reading guide brings you:

- A complete plot summary
- Character studies
- Key themes and symbols
- Questions for further reflection

See the very best of literature in a whole new light with BrightSummaries.com!

The daughter of a literary household of means, Katherine Hilbery has distanced herself from romantic entanglements in favour of a life of intellectual pursuits. Mary Datchet, the daughter of a country vicar, has chosen to focus her attentions on supporting the suffrage movement. But when confronted with offers of marriage from unlikely suitors, both women must determine whether or not there is room for love in the lives they have chosen to lead. One of Virginia Woolf's earliest novels, *Night and Day* examines each woman's thoughts on love, marriage, and personal fulfillment in Edwardian England.

Virginia Woolf and the Natural World is a compilation of thirty-one essays presented at the twentieth annual international conference on Virginia Woolf. This volume explores Woolf's complex engagement with the natural world, an engagement that was as political as it was aesthetic. The diversity of topics within this collection—ecofeminism, the nature of time, the nature of the self, nature and sporting, botany, climate, and landscape, just to name a few—fosters a deeper understanding of the nature of nature in Woolf's works. Contributors include Bonnie Kime Scott, Carrie Rohman, Diana Swanson, Elisa Kay Sparks, Beth Rigel Daugherty, Jane Goldman, and Diane Gillespie, among many others from the international community of Woolf scholars.
